Copyright 2002 Sun Microsystems, Inc., 4150 Network Circle, Santa Clara, California 95054, U.S.A. All rights reserved.

Sun Microsystems, Inc. has intellectual property rights relating to technology embodied in the product that is described in this document. In particular, and without limitation, these intellectual property rights may include one or more of the U.S. patents listed at <http://www.sun.com/patents> and one or more additional patents or pending patent applications in the U.S. and in other countries.

This document and the product to which it pertains are distributed under licenses restricting their use, copying, distribution, and decompilation. No part of the product or of this document may be reproduced in any form by any means without prior written authorization of Sun and its licensors, if any.

Third-party software, including font technology, is copyrighted and licensed from Sun suppliers.

The Energy Star logo is a registered trademark of EPA

Parts of the product may be derived from Berkeley BSD systems, licensed from the University of California. UNIX is a registered trademark in the U.S. and in other countries, exclusively licensed through X/Open Company, Ltd.

Sun, Sun Microsystems, the Sun logo, Sun Blade, OpenBoot, and Solaris are trademarks or registered trademarks of Sun Microsystems, Inc. in the U.S. and in other countries.

All SPARC trademarks are used under license and are trademarks or registered trademarks of SPARC International, Inc. in the U.S. and in other countries. Products bearing SPARC trademarks are based upon an architecture developed by Sun Microsystems, Inc.

The OPEN LOOK and Sun™ Graphical User Interface was developed by Sun Microsystems, Inc. for its users and licensees. Sun acknowledges the pioneering efforts of Xerox in researching and developing the concept of visual or graphical user interfaces for the computer industry. Sun holds a non-exclusive license from Xerox to the Xerox Graphical User Interface, which license also covers Sun's licensees who implement OPEN LOOK GUIs and otherwise comply with Sun's written license agreements.

As an Energy Star® partner, Sun Microsystems, Inc. has determined that configurations of this product that bear the Energy Star Logo meet the Energy Star guidelines for energy efficiency.

Use, duplication, or disclosure by the U.S. Government is subject to restrictions set forth in the Sun Microsystems, Inc. license agreements and as provided in DFARS 227.7202-1(a) and 227.7202-3(a) (1995), DFARS 252.227-7013(c)(1)(ii) (Oct. 1998), FAR 12.212(a) (1995), FAR 52.227-19, or FAR 52.227-14 (ALT III), as applicable.

DOCUMENTATION IS PROVIDED "AS IS" AND ALL EXPRESS OR IMPLIED CONDITIONS, REPRESENTATIONS AND WARRANTIES, INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE OR NON-INFRINGEMENT, ARE DISCLAIMED, EXCEPT TO THE EXTENT THAT SUCH DISCLAIMERS ARE HELD TO BE LEGALLY INVALID.

Copyright 2002 Sun Microsystems, Inc., 4150 Network Circle, Santa Clara, California 95054, Etats-Unis. Tous droits réservés.

Sun Microsystems, Inc. a les droits de propriété intellectuels relatants à la technologie incorporée dans le produit qui est décrit dans ce document. En particulier, et sans la limitation, ces droits de propriété intellectuels peuvent inclure un ou plus des brevets américains énumérés à <http://www.sun.com/patents> et un ou les brevets plus supplémentaires ou les applications de brevet en attente dans les Etats-Unis et dans les autres pays.

Ce produit ou document est protégé par un copyright et distribué avec des licences qui en restreignent l'utilisation, la copie, la distribution, et la décompilation. Aucune partie de ce produit ou document ne peut être reproduite sous aucune forme, par quelque moyen que ce soit, sans l'autorisation préalable et écrite de Sun et de ses bailleurs de licence, s'il y en a.

Le logiciel détenu par des tiers, et qui comprend la technologie relative aux polices de caractères, est protégé par un copyright et licencié par des fournisseurs de Sun.

Des parties de ce produit pourront être dérivées des systèmes Berkeley BSD licenciés par l'Université de Californie. UNIX est une marque déposée aux Etats-Unis et dans d'autres pays et licenciée exclusivement par X/Open Company, Ltd.

Sun, Sun Microsystems, le logo Sun, Sun Blade, OpenBoot, et Solaris sont des marques de fabrique ou des marques déposées de Sun Microsystems, Inc. aux Etats-Unis et dans d'autres pays.

Toutes les marques SPARC sont utilisées sous licence et sont des marques de fabrique ou des marques déposées de SPARC International, Inc. aux Etats-Unis et dans d'autres pays. Les produits portant les marques SPARC sont basés sur une architecture développée par Sun Microsystems, Inc.

L'interface d'utilisation graphique OPEN LOOK et Sun™ a été développée par Sun Microsystems, Inc. pour ses utilisateurs et licenciés. Sun reconnaît les efforts de pionniers de Xerox pour la recherche et le développement du concept des interfaces d'utilisation visuelle ou graphique pour l'industrie de l'informatique. Sun détient une licence non exclusive de Xerox sur l'interface d'utilisation graphique Xerox, cette licence couvrant également les licenciées de Sun qui mettent en place l'interface d'utilisation graphique OPEN LOOK et qui en outre se conforment aux licences écrites de Sun.

LA DOCUMENTATION EST FOURNIE "EN L'ÉTAT" ET TOUTES AUTRES CONDITIONS, DECLARATIONS ET GARANTIES EXPRESSES OU TACITES SONT FORMELLEMENT EXCLUES, DANS LA MESURE AUTORISEE PAR LA LOI APPLICABLE, Y COMPRIS NOTAMMENT TOUTE GARANTIE IMPLICITE RELATIVE A LA QUALITE MARCHANDE, A L'APTITUDE A UNE UTILISATION PARTICULIERE OU A L'ABSENCE DE CONTREFAÇON.

# Sun Blade 100 and Sun Blade 150 Workstations: Differences

---

This document describes the differences between the Sun Blade 100 workstation and the Sun Blade 150 workstation and highlights any significant changes from a service or service-training perspective. Any features not discussed here are identical in both workstations.

---

**Note** – Where relevant, features of the Sun Blade 100 “refresh program” of September 2001 are also discussed.

---

This document compares the Sun Blade 100 and the Sun Blade 150 workstations by discussing the following topics:

- “Features” on page 2
- “Specifications” on page 3
- “CPUs” on page 4
- “Power Supplies” on page 4
- “Motherboard” on page 5
- “Chassis” on page 5
- “Standard Configurations” on page 6
- “FRUs” on page 6
- “Operating Environments and Patches” on page 7
- “OBP” on page 9
- “Smart Card Reader” on page 9
- “Documentation Sets” on page 10

---

# Features

Table 1 compares the primary features of the Sun Blade 100 workstation and the Sun Blade 150 workstation.

TABLE 1 Comparison of Features<sup>1</sup>

Feature	Sun Blade 100	Sun Blade 150
CPU	500 MHz UltraSPARC IIe (Hummingbird) with 256 Kbyte internal cache and heatsink	550 MHz or 650 MHz UltraSPARC IIi (Phantom) with 512 Kbyte internal cache, heatsink, and fan
Power supply	200 watt	250 watt
Hard drive	15 Gbyte 7,200 RPM with ATA66 interface at product introduction, updated to 20 Gbyte in the “refresh program”; additional drive as option	40 Gbyte 7,200 RPM with ATA66 interface; additional drive as option
Riser board	3 PCI connector and 1 power connector	3 PCI connectors, 2 power connectors, and EMI shielding
Diskette drive	1.44 Mbyte manual-eject	1.44 Mbyte manual-eject
Smart card reader	Smart card reader I (SCR403), supported by Solaris 8 2/02 operating environment and patches	Smart card reader II (SCR 443), supported by Solaris 8 2/02 operating environment and patches; reads cards inserted either side up
PCI card expansion	Three long 33-MHz, 32-bit connectors for both long and short PCI cards; total maximum power of 50w	Three long 33-MHz, 32-bit connectors for both long and short PCI cards; total maximum power of 50w
Serial port	One	One
Parallel port	One	One
Ethernet	10 megabit/100 megabit per second	10 megabit/100 megabit per second; 100Mb link-status LED visible inside the case for debugging
Supported DIMMs	128-Mbyte, 256 Mbyte, 512 Mbyte	128-Mbyte, 256 Mbyte, 512 Mbyte
Total addressable DIMM memory	2 Gbyte	4 Gbyte

1. Boldface indicates items that differ between the Sun Blade 100 workstation and the Sun Blade 150 workstation.

# Specifications

Table 2 compares the Sun Blade 100 and Sun Blade 150 specifications.

TABLE 2 Comparison of Specifications<sup>1</sup>

Specification	Sun Blade 100	Sun Blade 150
<b>Dimensions</b>		
Height	4.6 inches (11.68 cm)	4.6 inches (11.68 cm)
Width	18 inches (45.70 cm)	18 inches (45.70 cm)
Depth	17.6 inches (44.60 cm)	17.6 inches (44.60 cm)
Weight (approximate)	<b>34.2 lb. (15.5 kg)</b>	<b>26.9 lb. (12.2 kg)</b>
<b>Environment While Operating</b>		
Temperature	41° to 95° F (5° to 35° C)	41° to 95° F (5° to 35° C)
Humidity	<b>40% to 80% noncondensing at 95 degrees F (35 degrees C)</b>	<b>10% to 90% RH (noncondensing, 27° C maximum wet bulb)</b>
Altitude	10,000 ft. (3 km)	10,000 ft. (3 km)
<b>Environment While Not Operating</b>		
Temperature	-40° to 150° F (-40° to 65° C)	-40° to 150° F (-40° to 65° C)
Humidity	<b>30% to 90% noncondensing at 140° F (60° C) maximum</b>	<b>93% RH (noncondensing, 38° C maximum wet bulb)</b>
Altitude	40,000 ft. (12 km)	40,000 ft. (12 km)
<b>Acoustic Range</b>		
Operating	<b>&lt;50 dba</b>	<b>&lt;55 dba</b>
Idle	<b>&lt;45 dba</b>	<b>&lt;48 dba</b>
<b>Operating Vibration</b>		
IEC 60068-2-64 Specification	0.001G <sup>2</sup> /Hz random, 5 to 500 Hz (0.70Grms), 60 min. dwell per axis, 3 axes	0.001G <sup>2</sup> /Hz random, 5 to 500 Hz (0.70Grms), 60 min. dwell per axis, 3 axes
IEC 60068-2-6 Specification	<b>0.5G/1.5mm flat spectrum swept-sine, 5 to 500 Hz, 5 sweep cycles per axis, 3 axes</b>	<b>0.25G/1.5mm flat spectrum swept-sine, 5 to 500 Hz, 5 sweep cycles per axis, 3 axes</b>

1. Boldface indicates items that differ.

---

# CPUs

The Sun Blade 100 and Sun Blade 150 workstations use different CPUs, as summarized in Table 3.

**TABLE 3** CPUs for the Sun Blade 100 and Sun Blade 150 Workstations

CPU Feature	Sun Blade 100	Sun Blade 150
Speed and Name	500 MHz UltraSPARC IIe	550 MHz <i>or</i> 650 MHz UltraSPARC III
Internal cache	256 Kbyte	512 Kbyte
CPU assembly	CPU and heatsink as integrated unit	Three distinct components: CPU, heatsink with fan, and CPU grounding ring
FRU strategy	One FRU consisting of the integrated unit	2 FRUs: (1) CPU with CPU grounding ring, and (2) heatsink with fan and CPU grounding ring
Upgrade path	Cannot upgrade from UltraSPARC IIe to UltraSPARC III	Cannot upgrade from the 550 MHz UltraSPARC III to the 650 MHz UltraSPARC III

---

# Power Supplies

The Sun Blade 150 workstation's 250 watt power supply provides additional power for the higher performance of the UltraSPARC III CPU and for future higher capacity DIMMs.

---

**Note** – The additional power is not available to the PCI expansion slots, which have a maximum power of 50 watts.

---

The 250 watt power supply includes an additional power cable that connects to the Sun Blade 150 riser card to distribute the added current.

---

# Motherboard

Five key features and differences distinguish the Sun Blade 150 motherboard from the Sun Blade 100 motherboard:

- The Sun Blade 150 motherboard assembly includes a cooling fan as part of the heatsink assembly.
- The Sun Blade 150 motherboard FRU includes the CPU grounding ring.
- The CPU mode detect jumper, JP3, must be set properly according to the speed of the installed CPU module, as shown in Figure 1.
- The Sun Blade 150 motherboard includes an internal 10/100 Ethernet link LED for debugging.
- The layout of the Sun Blade 150 motherboard was changed to increase the suppression of EMI emissions. This increased the board layers from four to six.

**FIGURE 1** Settings for the Sun Blade 150 CPU Mode Detect Jumper

---

# Chassis

The sun Blade 150 chassis provides additional EMI shielding, notably in two places:

- On the divider between the power supply and the peripheral assembly bay.
- At the riser card assembly.

These chassis changes may be phased into the last-produced Sun Blade 100 workstations, although the Sun Blade 150 riser card and its associated shielding will remain unique to the Sun Blade 150 workstation.

---

# Standard Configurations

The Sun Blade 100 workstation was released in three standard configurations:

- 500 MHz UltraSPARC IIe CPU, 128 Mbyte memory, on-board PGX64 graphics accelerator, 15 Gbyte hard drive, CD-ROM drive<sup>1</sup>
- 500 MHz UltraSPARC IIe CPU, 256 Mbyte memory, Expert3D-Lite graphics accelerator board, 15 Gbyte hard drive, DVD-ROM drive
- 500 MHz UltraSPARC IIe CPU, 512 Mbyte memory, Expert3D-Lite graphics accelerator board, 15 Gbyte hard drive, DVD-ROM drive

The Sun Blade 150 workstation is released in three configurations:

- 550 MHz UltraSPARC IIi CPU, 128 Mbyte memory, 40 Gbyte hard drive, on-board PGX 64 graphics accelerator, marketing part number A41-UPA19C-128M-BA<sup>1</sup>
- 650 MHz UltraSPARC IIi CPU, 256 Mbyte memory, 40 Gbyte hard drive, on-board PGX 64 graphics accelerator, marketing part number A41-UTA19C-256M-BA<sup>1</sup>
- 650 MHz UltraSPARC IIi CPU, 512 Mbyte memory, 40 Gbyte hard drive, Sun XVR-500 graphics accelerator board, marketing part number A41-UTA19A-512M-DK<sup>1</sup>

1. Energy Star-compliant configuration

---

# FRUs

Table 4 lists the field-replaceable units (FRUs) for both workstations.

**TABLE 4** FRUs for the Sun Blade 100 and Sun Blade 150 Workstations

Sun Blade 100 Workstation		Sun Blade 150 Workstation	
Part Number	Description	Part Number	Description
F375-0096	Motherboard with tray	F375-3088	Motherboard with tray and CPU grounding ring
F375-3061	Motherboard with tray		
F375-3092	Motherboard with tray		
F375-3123	Motherboard without tray		
F375-3106	Refreshed motherboard with tray		

**TABLE 4** FRUs for the Sun Blade 100 and Sun Blade 150 Workstations

Sun Blade 100 Workstation		Sun Blade 150 Workstation	
Part Number	Description	Part Number	Description
		F370-5202	Heatsink with integral fan and CPU grounding ring

		F527-1036	650 MHz UltraSPARC IIe CPU with CPU grounding ring

## Operating Environments and Patches

Both the Sun Blade 100 and the Sun Blade 150 come with preinstalled software consisting of a Solaris 8 operating environment and additional software applications.

For a list of the additional software applications, see the Getting Started Guide for the workstation under consideration.

Table 5 shows the preinstalled operating environment for each workstation and the patches that need to be downloaded to fully restore the preinstalled operating environment. The patches are shown at their minimum required version level.

---

**Note** – Always install the most recent version of a patch. Patches are available at: <http://www.sunsolve.sun.com>

---

**TABLE 5** Solaris Operating Environment and Patches

Operating Environment	Patches
<b>Solaris 8 10/00<sup>1</sup> for Sun Blade 100 workstatin</b>	109793-04 (Serial Port)
	109920-03 (PCMCIA)
	110221-01 (Sun 1394 Camera)
	109874-03 (Audio Driver)
<b>Solaris 8 1/01 for Sun Blade 100 “refresh” program<sup>2</sup></b>	108528-06 (Kernel Update 6)
	109793-05 (Serial Port)
	109920-03 (PCMCIA)
	110221-01 (Sun 1394 Camera)
	109874-05 (Audio Driver)
	109882-03 (ERI Header Files)
	110723-01 (ERI Driver)
	108974-09 (UATA and SD)
	108606-08 (M64 Graphics)
	108576-10 (Expert3D Graphics)
<b>Solaris 8 2/02 for Sun Blade 100 and Sun Blade 150 workstations</b>	108528-15 (Kernel Update 6)
	110723-05 (ERI Driver)
	111874-05 (usr/bin/mail)
	111883-07 (Sun GigaSwift Ethernet)
	110457-05 (Smart Card Terminal)
	109887-13 (Smart Card Reader)

1. Requires *Operating Environment Installation CD 10/00, for Sun Blade 100 Systems, 704-7610*, to initiate installation of Solaris 8 10/00.

2. Requires *Operating Environment Installation CD 1/01, for Sun Blade 100 Systems, 704-7617*, to initiate installation of Solaris 8 1/01.

---

**Note** – To reinstall the operating environment on a Sun Blade 150, you do not need an Operating Environment Installation CD.

---

---

## OBP

Table 6 shows the OpenBoot™ PROM history for both workstations.

**TABLE 6** OpenBoot PROM History

Sun Blade 100 Workstation <sup>1</sup>		Sun Blade 150 Workstations	
OpenBoot PROM	Release Date	OpenBoot PROM	Release Date
v 4.0.31	February 2001		
v 4.0.45	June 2001 (“refresh program”)		
v 4.5.9	April 2002		
		v 4.6.10	July 2002

1. For additional information on OpenBoot PROM and the Sun Blade 100, see *Updating the Sun Blade 100 OpenBoot PROM Firmware*, 816-0737. This document can be found at: <http://www.sun.com/products-n-solutions/hardware>

---

## Smart Card Reader

The smart card reader I (SCR403) in the Sun Blade 100 was supported by Solaris 8 2/02 plus patches. The smart card reader itself was changed to a newer model in the Sun Blade 150, and Solaris 8 2/02 offers support for the device. The Sun Blade 150 smart card reader can read cards inserted with either side up.

---

**Note** – If installing or reinstalling Solaris 8 2/02 in either workstation, also install patches 110457 and 109887. These patches are available at: <http://www.sunsolve.sun.com>.

---

# Documentation Sets

Table 7 lists the documentation for each workstation and the formats in which each document is distributed.
