Notes

1. The minimum OS is Solaris 2.5.1 HW: 4/97 and Quad FastEthernet 2.0.
2. Solaris 2.6 requires QuadFastEthernet 2.1.
3. The Ultra 30, Netra T1, and Sun Blade 100 are not compatible with DC21153 Rev A or B.
(See BugIDs 4094903, 4432431, and 4615897, and FCO A0132-1.)
501-4366 was not qualified on system platforms released after July 2001.
4. One CPU per port is recommended for maximum throughput.
5. Two CPUs per QFE/P are recommended for systems with ≥ 200 MHz processors.
6. Auto-negotiation is used to select operating mode and speed.
